

**KINGS ROAD, NW10 £1,200,000 FREEHOLD**

I'm often in newly renovated houses. It's always interesting to see what I might have done things a little differently. Not so with this fine home as the specification is very high. Solid oak parquet flooring has been laid throughout plush carpets. There are new wooden double-glazed sash windows through wood burning stove in the reception rooms. There is a new system boiler as the kitchen has been excavated and extended making it a superb place to immediately presented with carefully chosen shrubs and a cedar deck.

Heating comes from Italian Bisque radiators.
