

### SOME LIKE IT HOT

Selecting options for heating your home doesn't have to be boring, particularly with the new release from Bisque, the UK's first designer radiator brand. Lissett is the latest addition to the label's Aluminium collection and boasts a slim profile and a subtle, elegant design, making it the ideal choice for a more contemporary home. The Lissett is available in six sizes – four horizontal and two vertical – and a range of colour finishes. Also joining the collection is the Lissett Towel radiator; both models benefit from eco-friendly technology and are crafted from recycled aluminium, meaning they heat up faster and are more energy efficient. It's a win-win.

*prices for the Lissett start from £439, while the Lissett Towel rail starts at £436, [bisque.co.uk](http://bisque.co.uk)*
